

CABINETS

It's not just the government that needs a smart cabinet. Our beautifully built cabinets offer an alternative to a mirror for when you need additional storage space.

Choose from wall mounted or floorstanding, in a wide range of sizes, specifications and finishes. There is more than one to match your style of bathroom.

ASCENSION CABINETS ARE AVAILABLE:

In slimline and
standard depths

With and without lighting

ASCENSION

Our style gurus have surpassed themselves with this range of sleek aluminium cabinets.

Choose from our luxurious range of aluminium cabinets which includes designs incorporating integrated fluorescent or LED lights, in standard and slimline depths.

Double and single door versions with and without integrated lights are available.

1. Plateau single mirror glass
door cabinet £400.56

1&3. Summit double mirror glass door cabinet £422.22

2. Plateau single mirror glass door cabinet £400.56

4. Chrome handles

Smart polished chrome handles remove the need to touch the mirror glass whilst opening and closing the cabinet.

5. Advanced closing feature

A quieter life is guaranteed as Summit and Plateau both benefit from soft-close doors.

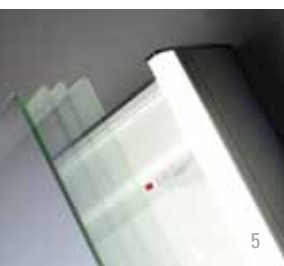

6. Lighting

Summit and Plateau feature cleverly integrated fluorescent lighting down each side of the front of the cabinets. This lighting is also cast into the cabinet itself when the doors are open helping you to see the cabinet's contents even when your bathroom lights are off.

SUMMIT AND PLATEAU CABINETS WITH INTEGRATED FLUORESCENT LIGHTS

Summit and Plateau feature integrated fluorescent lights that project from the front of the cabinets to provide an abundance of useful lighting.

Sleek design and generous storage is complemented by the lights which illuminate the inside of the cabinets when the doors are open.

Summit
 Double mirror glass door cabinet.
 654(w) x 700(h) x 135(d)mm
 Integrated fluorescent lighting.
 Soft-close double sided mirror doors.

 AS515ALIL £400.56

1

1. Plateau anthracite single mirror glass door cabinet £400.56

2. Plateau white single mirror glass door cabinet £400.56

3&4. Interiors

Internally the cabinets are finished in anthracite and white with matching removable base trays.

5. Curved anodised aluminium bodies

The curved bodies are coated in anthracite and white paint, making them an ideal match for our contemporary furniture ranges.

2

3

4

5

anthracite white

SUMMIT AND PLATEAU CABINETS WITH INTEGRATED FLUORESCENT LIGHTS - ANTHRACITE & WHITE

Turn heads with an illuminated cabinet in anthracite or white finish.

Plateau and Summit anthracite and white cabinets combine the same premium quality materials and thoughtful features as their standard aluminium finish cousins and are the perfect complement to our contemporary bathroom furniture.

Double sided mirror doors, smart chrome handles and soft-close hinges abound, whilst internally the cabinets match the outside trim, even down to the removable trays.

Summit Anthracite

Double mirror glass door cabinet. 645(w) x 700(h) x 135(d)mm

1

1&2. Refine slimline double mirror glass door cabinet with LED lights, infrared switch and electric shaver/toothbrush socket £362.67

Refine is available with LED light fittings. The LED light incorporates 28 white LEDs with a life expectancy of 60,000 hours of continuous use.

3. Slimline depth

Perfect for smaller sized ensuite bathrooms, Refine and Limit measure just 100mm in depth, really maximising your above-basin wash space. Precision mitred corner joints ensure the subtle profiles remain uninterrupted.

4. Refine slimline double mirror glass door cabinet £200.28

The 70:30 split in the double mirror doors of Refine allows you to access your essential toiletries whilst still enjoying a large uninterrupted mirror space.

2

3

4

REFINE AND LIMIT CABINETS - SLIMLINE DEPTH

Our Refine and Limit slimline cabinets offer superb storage but save on space as they are only 100mm deep. The double door Refine cabinet is available with or without the LED light fitting and shaver socket. The single door version named Limit (without electrics) offers superb value for money and the same great looks.

The double doors of Refine are split so that the door on the left is wider than that on the right. This allows you to access your essential toiletries as well as your electric shaver/toothbrush whilst still enjoying a large uninterrupted mirror space.

Refine

All cabinets (excluding Reference) feature a convenient easy-to-remove tray in the base. The tray securely holds your toiletries and can be removed for cleaning whenever necessary to ensure your cabinet stays in tip top condition.

SENSORY

Stylish and practical. What more could you want from a bathroom cabinet?

Three distinct designs in three striking finishes – oak, walnut and brilliant white. Choice and style is always paramount, whatever your storage requirements.

Useful features such as soft-close doors for quiet and controlled closure and a no-touch infrared on/off switch combines safety and functionality for the bathroom.

Vision and Instinct cabinets feature LED lights to provide subtle mood lighting for your bathroom. The LED lighting is operated using the no-touch infrared switch.

Serenity provides not only excellent storage capacity but also a full-length dressing mirror.

Internal glass shelves provide ample storage for all your bathroom products.

1. Instinct walnut finish single mirror glass door cabinet £508.29
Reef basin mixer tap
 (see page 192) £175.45

SENSORY FINISHES

walnut

oak

white

1. Vision white finish single mirror glass door cabinet £382.72
Kato white washstand & Ceramic basin £725.03
Reef basin mixer tap (see page 192) £175.45

2. Mirror back panel

All cabinets feature mirrored internal back panels which are film backed for safety.

3. Infrared on/off switch

A safe and easy to use infrared on/off switch, enables the user to activate the lighting without the need to touch the cabinet. Simply move your hand in front of the sensor to activate. Please note: the product must be mounted a minimum of 150mm from an adjacent wall/surface or obstruction to ensure correct function of the infrared sensor. The sensor is mounted on the underside of Instinct and on the right hand side of Vision cabinets.

4. Shaver socket

Sensory cabinets are fitted with a power socket for electric shavers and toothbrushes and can be operated independently to the lights.

5. Glass shelves

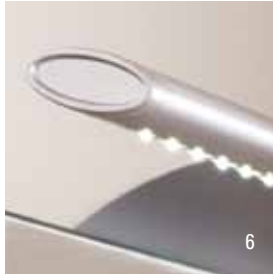

Sensory cabinets are fitted with 2 glass shelves.

6. LED light fittings

Vision features a sleek LED light fitting providing subtle mood lighting for the bathroom. The Instinct cabinet has a strip of white LED's integrated into the mirrors on either side of the door. The LED lighting is operated using the latest no-touch infrared switch featured underneath the cabinet.

7. Soft-close doors

All Sensory cabinets benefit from the added luxury of soft close doors to allow a controlled and quiet closure.

FEATURES FOR ALL SENSORY CABINETS

- Real wood veneer or high gloss white finish
- Double sided mirror doors
- 6mm laminated safety mirror glass
- PVC film backed safety glass
- Mirrored back panels
- Glass shelves
- Shaver socket
- No-touch infrared on/off switch
- Enclosed electrics for safety
- Long-life LEDs – life expectancy 60,000 hours of continuous

Sensory cabinets are suitable for use outside zones 1 & 2. See page 264 for zone diagram.

* Please add 55mm to the overall height of the cabinet to allow for the light fitting

SENSORY & ASCENSION CABINETS WITH ELECTRICS

Sensory and Ascension cabinets have been designed and independently tested for compliance to electrical equipment (safety) regulations. Standards applicable to all Sensory and Ascension cabinets: BS EN 60598-1:2004 & Amd 1, EN 60598-2-1:1989. Standards applicable to all Sensory and Ascension cabinets with LED light fittings: BS EN 60825-1: 1994 inc Amd 1: 1996, Amd 2: 1997 & Amd 3: 2002 & Corrigendum 1 (Class 1 LED product) BS EN 60598-1: 2004, EN 60598-2-1: 1989, BS EN 60598-2-2.

LED's have a life expectancy of 60,000 hours continuous use. All LED light fittings are replaceable and are available from Roper Rhodes customer service. Sensory and Ascension cabinets are only suitable for use in outside zones according to the latest IEE regulations. All Sensory and Ascension cabinets are class 1 insulated and require an earth connection.

IMPORTANT – all cabinets featuring infrared technology must be mounted a minimum of 150mm from an adjacent wall or obstruction to ensure correct function of the infrared sensor.

Please add 55mm to the overall height of the cabinets to allow for the LED light fitting where applicable.

IMAGES CABINETS WITH ELECTRICS

Images bathroom cabinets with lights and shaver sockets have been designed and independently tested for compliance to British Electrical Equipment (Safety) Regulations 1994. Standards applicable are: BS EN60598-2-6: 1995 and BS EN60742: 1996 (BS 3535: Part 1 1996). Cabinets are Class II double insulated - no earth connection required. IP23 electrical connections should be made according to National Wiring Regulations. Installation by a competent electrician is advised. Shaver sockets are suitable for shavers and rechargeable toothbrushes. Maximum power output 20VA. Shaver socket is switched independently to the lights. Images cabinets with lighting are suitable for use outside zones 1 & 2. See page 258 for zone diagram.

EDEN LIGHT KITS

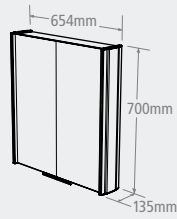

Eden lights are class II double insulated - No earth connection required. Electrical connections should be made according to IEE national wiring regulations. Installation by a competent electrician is advised. Eden lights are suitable for bathroom use but should not be located in a sauna or shower cubicle. The lights should be installed in 'outside zones' of the bathroom in accordance with the latest IEE regulations. Eden lights have been designed and independently tested for compliance to British Electrical Safety Standards including: BS EN 60598-1: 2000 AMD:1-4, BS EN 60598-2-1: 1989.

SIGNATURE LIGHT KITS

Signature lights are class II double insulated - No earth connection required. Electrical connections should be made according to IEE national wiring regulations. Installation by a competent electrician is advised. Signature lights are suitable for bathroom use but should not be located in a sauna or shower cubicle. The lights should be installed outside zones 1 & 2 of the bathroom in accordance with the latest IEE regulations. Signature lights have been designed and independently tested for compliance to British Electrical Safety Standards including: BS EN 60598-1: 2000 AMD:1&2, BS EN 60598-2-1: 1989.
